

# LUXOR

solar module manufacturer since 2007

LUXOR SOLAR  
PRODUCT WARRANTY  
EXTENSION 15+

FOR ALL ECO-LINE GLASS-FOIL SOLAR MODULES

Luxor Solar offers - only to a special selection of clients - the service to extend the standard product guarantee\* of the Eco Line series from the standard of 15 years to up to 20 years and hence ensure the backup of reliability for another 5 years at most. This offers additional flexibility on extending the standard warranty services on workmanship where desired or required, to add up to an extra on security and reliability.

# LUXOR SOLAR PRODUCT WARRANTY EXTENSION 15+

## WHY AND WHAT

### WHY EXTEND THE WARRANTY?

Because each LUXOR photovoltaic module is carefully manufactured and its function is constantly subjected to the strictest internal quality controls, we can ensure a warranty on flawless workmanship on the product for 15 years as a standard warranty period already.

By adding up the warranty extension desired, you can ensure your system to be running without problems from the side of the solar module for up to 5 years more, which relieves you from worrying about problems for another five years and hence secure the product of your system for up to another 5 years.

### WHAT TO DO TO GET IT?

The Extension 15+ is simple to get and available when required, you can book it for

- + a specific number of panels
- + the number of years you are looking to extend

The extended warranty certificate will be ready for you to be downloaded in the designated area on the website of Luxor Solar ([www.luxor-solar.com/downloads.html](http://www.luxor-solar.com/downloads.html)).

The confirmation of your booking will be shown in the document of purchase to ensure your warranty is listed and available upon request when needed.

Any questions?
